REDMOND/WILLIAMS

 **BOSCH**
Invented for life

Advanced Geothermal Technology
Naturally, by Bosch

One of the leading names in advanced technology today, Bosch builds high-quality heat pumps and geothermal systems.

Redmond/Williams carries the full Bosch Geothermal Heat Pump line, ranging from 2-6 ton water-to-air and water-to-water units. All heat pumps come with an ECM motor, 2-stage scroll compressor and quiet acoustic package.
